Large Format Stereo Exhibit

Deadline: June 15, 2007

This exhibition will provide a venue for displaying large format stereo images. Examples of such works include anaglyph prints, phantograms, lenticular stereos, stereojets prints, stereoscopic drawing and paintings, View-Magic format print-pairs, MirScope (mirror-view) print-pairs, backlit films, and computer displays, Side-by-side prints formatted for the Hyperview system, beam splitter viewed prints or computer displays, or any other type of display that features original images considerably larger than printed stereocards and 35mm and medium-format transparencies. Tables will be provided for displays. Special viewers or stands will usually be provided by each exhibitor as required, but some viewing systems will available for use by exhibitors (contact the chairman). The Chairman and the NSA Convention Staff reserves the right to reject entries that are not suitable for display in this exhibit. Exhibit entries may, at the choice of the exhibitor, be marked for sale as individual artworks.

Name: _____
Badge nickname: _____
Address: _____
City: _____ State: _____ Zip/Postal Code: _____
Country: _____ email: _____

Exhibit Title: _____

Brief Description: _____

Display Requirements: _____
